Exhibit 2 - Notices, Written Comments, Transcripts, Other Communications

[Add](#) [Remove](#) [View](#)

Exhibit Sent As Paper Document

Copies of notices, written comments, transcripts, other communications. If such documents cannot be filed electronically in accordance with Instruction F, they shall be filed in accordance with Instruction G.

Exhibit 3 - Form, Report, or Questionnaire

[Add](#) [Remove](#) [View](#)

Exhibit Sent As Paper Document

Copies of any form, report, or questionnaire that the self-regulatory organization proposes to use to help implement or operate the proposed rule change, or that is referred to by the proposed rule change.

Exhibit 4 - Marked Copies

[Add](#) [Remove](#) [View](#)

The full text shall be marked, in any convenient manner, to indicate additions to and deletions from the immediately preceding filing. The purpose of Exhibit 4 is to permit the staff to identify immediately the changes made from the text of the rule with which it has been working.

Exhibit 5 - Proposed Rule Text

[Add](#) [Remove](#) [View](#)

The self-regulatory organization may choose to attach as Exhibit 5 proposed changes to rule text in place of providing it in Item I and which may otherwise be more easily readable if provided separately from Form 19b-4. Exhibit 5 shall be considered part of the proposed rule change.

Partial Amendment

[Add](#) [Remove](#) [View](#)

If the self-regulatory organization is amending only part of the text of a lengthy proposed rule change, it may, with the Commission's permission, file only those portions of the text of the proposed rule change in which changes are being made if the filing (i.e. partial amendment) is clearly understandable on its face. Such partial amendment shall be clearly identified and marked to show deletions and additions.

1. Text of Proposed Rule Change

(a) Miami International Securities Exchange, LLC (“MIAX” or “Exchange”), pursuant to the provisions of Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)¹ and Rule 19b-4 thereunder,² proposes to amend Exchange Rule 404, Series of Option Contracts Open for Trading, by modifying Interpretations and Policies .02 to the Rule to expand the number of expirations available under the Short Term Option Series Program (“STOS Program”), to allow the Exchange to delist certain series in STOS that do not have open interest, and to expand the number of series in STOS under limited circumstances.

A notice of the proposed rule change for publication in the Federal Register is attached hereto as Exhibit 1, and a copy of the proposed amended rule text is attached hereto as Exhibit 5.

(b) Not applicable.

(c) Not applicable.

2. Procedures of the Self-Regulatory Organization

The proposed rule change was approved by the Chief Executive Officer of the Exchange pursuant to authority delegated by the MIAX Board of Directors on December 5, 2012.

Exchange staff will advise the Board of Directors of any action taken pursuant to delegated authority. No other action by the Exchange is necessary for the filing of the proposed rule change.

Questions and comments on the proposed rule change may be directed to Richard S. Rudolph, Senior Counsel, at (609) 897-1487.

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

3. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

a. Purpose

The purpose of the proposal is to amend Exchange Rule 404, Interpretations and Policies .02, to provide for the ability to open up to five consecutive expirations under the STOS Program for trading on the Exchange, to allow the Exchange to delist certain series in STOS that do not have open interest, and to expand the number of series in STOS under limited circumstances when there are no series at least 10% but not more than 30% away from the current price of the underlying security.

Currently, the Exchange may select up to 25 currently listed option classes in which STOS options may be opened in the STOS Program, and the Exchange may also match any option classes that are selected by other securities exchanges that employ a similar program under their respective rules. For each option class eligible for participation in the STOS Program, the Exchange may open up to 30 Short Term Option Series for each expiration date in that class.³

This proposal seeks to allow the Exchange to open STOS option series for up to five consecutive week expirations. The Exchange intends to add a maximum of five consecutive week expirations under the STOS Program. However, it will not add an STOS expiration in the same week that a monthly options series expires or, in the case of Quarterly Option Series,⁴ on an expiration that coincides with an expiration of Quarterly Option Series on the same class. In

³ See Exchange Rule 404, Interpretations and Policies .02(a).

⁴ See Exchange Rule 404, Interpretations and Policies .03.

other words, the total number of consecutive expirations will be five, including any existing monthly or quarterly expirations.⁵

The Exchange notes that the STOS Program has been well-received by market participants, in particular by retail investors.⁶ The Exchange believes that the current proposed revision to the STOS Program will permit the Exchange to meet increased customer demand and provide market participants with the ability to hedge in a greater number of option classes and series.

With regard to the impact of this proposal on system capacity, the Exchange has analyzed its capacity and represents that it and the Options Price Reporting Authority have the necessary systems capacity to handle the potential additional traffic associated with trading of an expanded number of expirations that participate in the STOS Program.

In addition, to provide for circumstances where the underlying security has moved such that there are no series that are at least 10% above or below the current price of the underlying security, the Exchange is proposing to add new language to Interpretations and Policies .02 to provide that the Exchange would delist series with no open interest in both the call and the put series having: (i) a strike higher than the highest price with open interest in the put and/or call

⁵ For example, if Quarterly Options expire week 1 and monthly options expire week 3 from now, the proposal would allow the following expirations: week 1 Quarterly, week 2 STOS, week 3 monthly, week 4 STOS, and week 5 STOS.

⁶ Since the STOS Program has been adopted, it has seen rapid acceptance among industry participants as evidenced by the expansion of the number of classes eligible for the STOS Program by various Exchanges. See Securities Exchange Act Release Nos. 65775 (November 17, 2011), 76 FR 72473 (November 23, 2011) (SR-NASDAQ-2011-138); 65776 (November 17, 2011), 76 FR 72482 (November 23, 2011) (SR-PHLX-2011-131); 66563 (March 9, 2012), 77 FR 15426 (March 15, 2012); 67194 (June 13, 2012), 77 FR 36597 (June 19, 2012) (SR-NYSEMKT-2012-08); and 67178 (June 11, 2012), 77 FR 36305 (June 18, 2012) (SR-NYSEArca-2012-60).

series for a given expiration month; and (ii) a strike lower than the lowest strike price with open interest in the put and/or the call series for a given expiration month, so as to list series that are at least 10% but not more than 30% above or below the current price of the underlying security.

Further, in the event that all existing series have open interest and there are no series at least 10% above or below the current price of the underlying security, the Exchange may list additional series, in excess of the 30 allowed currently under Interpretations and Policies .02, that are at least 10% and not more than 30% above or below the current price of the underlying security.

The Exchange believes that it is important to allow investors to roll existing option positions, and ensuring that there are always series at least 10% but not more than 30% above or below the current price of the underlying security will allow investors the flexibility they need to roll existing positions. This change is being proposed notwithstanding the current cap of 30 series per class under the STOS Program.

b. Statutory Basis

The Exchange believes that its proposed rule change is consistent with Section 6(b)⁷ of the Act in general, and furthers the objectives of Section 6(b)(5)⁸ of the Act in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to and perfect the mechanisms of a free and open market and a national market system and, in general, to protect investors and the public interest.

⁷ 15 U.S.C. 78f(b).

⁸ 15 U.S.C. 78f(b)(5).

The Exchange believes that expanding the STOS Program will result in a continuing benefit to investors by giving them more flexibility to closely tailor their investment decisions and hedging decisions in a greater number of securities. The Exchange also believes that expanding the STOS Program will provide the investing public and other market participants with additional opportunities to hedge their investment, thus allowing these investors to better manage their risk exposure. While the expansion of the STOS Program will generate additional quote traffic, the Exchange does not believe that this increased traffic will become unmanageable since the proposal remains limited to a fixed number of expirations.

The Exchange believes that the ability to delist series with no open interest in both the call and the put series will benefit investors by devoting the current cap in the number of series to those series that are more closely tailored to the investment decisions and hedging decisions of investors.

4. Self-Regulatory Organization's Statement on Burden on Competition

MIAX does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

The Exchange believes that the proposal enhances competition among exchanges by enabling market participants to use STOS in a greater number of series in making investment decisions. MIAX will have more series through which investors will be able to tailor their investment and hedge positions, therefore enabling MIAX to compete with other exchanges that have similar rules in place, as cited below.

5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

6. Extension of Time Period for Commission Action

The Exchange does not consent to an extension of the time period for Commission action.

7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

Pursuant to Section 19(b)(3)(A) of the Act⁹ and Rule 19b-4(f)(6)¹⁰ thereunder, MIAX has designated this proposal as one that effects a change that: (i) does not significantly affect the protection of investors or the public interest; (ii) does not impose any significant burden on competition; and (iii) by its terms, does not become operative for 30 days after the date of the filing, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest.

The Exchange believes this proposed rule change is non-controversial because identical rules are currently effective on at least two other options exchanges, as cited below, and would permit the Exchange to list additional strikes, which is important to the protection of investors and the public interest, because the additional STOS will enable them to better manage the risk associated with their investment and hedge positions, to the benefit of not only individual investors but of the marketplace as a whole.

Rule 19b-4(f)(6) requires a self-regulatory organization to give the Commission written notice of its intent to file the proposed rule change at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. MIAX has satisfied this requirement. Furthermore, a proposed rule change filed pursuant to

⁹ 15 U.S.C. 78s(b)(3)(A).

¹⁰ 17 CFR 240.19b-4(f)(6).

Rule 19b-4(f)(6) under the Act normally does not become operative for 30 days after the date of its filing. However, Rule 19b-4(f)(6) permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange respectfully requests that the Commission waive the 30-day operative delay. Waiver of the operative delay is consistent with the protection of investors and the public interest because it will ensure fair competition among the exchanges by allowing the Exchange to open up to five consecutive expirations in STOS options, to delist any series in STOS that do not have open interest, and to expand the number of series per class permitted in the STOS Program under limited circumstances, in a manner consistent with several competing exchanges.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

8. Proposed Rule Change Based on Rules of Another Self-Regulatory Organization or of the Commission

The proposed rule change is based on, and is substantially similar in all material respects to, NYSE MKT LLC Rule 903(h) and related Commentary .10 thereto, and NYSE Arca, Inc. Rule 6.4, Commentary .07.

9. Security-Based Swap Submissions Filed Pursuant to Section 3C of the Act

Not applicable.

10. Advance Notices Filed Pursuant to Section 806(e) of the Payment, Clearing and Settlement Supervision Act

Not applicable.

11. Exhibits

1. Completed notice of proposed rule change for publication in the Federal Register.
5. Text of the proposed rule change.

EXHIBIT 1

SECURITIES AND EXCHANGE COMMISSION
(Release No. 34- ; File No. SR-MIAX-2013-23

May __, 2013

Self-Regulatory Organizations: Notice of Filing and Immediate Effectiveness of a Proposed Rule Change by Miami International Securities Exchange LLC to Expand the Short Term Option Series Program

Pursuant to the provisions of Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)¹ and Rule 19b-4 thereunder,² notice is hereby given that on May 20, 2013, Miami International Securities Exchange LLC (“MIAX” or “Exchange”) filed with the Securities and Exchange Commission (“Commission”) a proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange is filing a proposal to amend Exchange Rule 404, Series of Option Contracts Open for Trading, by modifying Interpretations and Policies .02 to the Rule to expand the number of expirations available under the Short Term Option Series Program (“STOS Program”), to allow the Exchange to delist certain series in STOS that do not have open interest, and to expand the number of series in STOS under limited circumstances.

The text of the proposed rule change is available on the Exchange’s website at http://www.miaxoptions.com/filter/wotitle/rule_filing, at MIAX’s principal office, and at the Commission’s Public Reference Room.

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposal is to amend Exchange Rule 404, Interpretations and Policies .02, to provide for the ability to open up to five consecutive expirations under the STOS Program for trading on the Exchange, to allow the Exchange to delist certain series in STOS that do not have open interest, and to expand the number of series in STOS under limited circumstances when there are no series at least 10% but not more than 30% away from the current price of the underlying security.

Currently, the Exchange may select up to 25 currently listed option classes in which STOS options may be opened in the STOS Program, and the Exchange may also match any option classes that are selected by other securities exchanges that employ a similar program under their respective rules. For each option class eligible for participation in the STOS Program, the Exchange may open up to 30 Short Term Option Series for each expiration date in that class.³

This proposal seeks to allow the Exchange to open STOS option series for up to five consecutive week expirations. The Exchange intends to add a maximum of five consecutive

³ See Exchange Rule 404, Interpretations and Policies .02(a).

week expirations under the STOS Program. However, it will not add an STOS expiration in the same week that a monthly options series expires or, in the case of Quarterly Option Series,⁴ on an expiration that coincides with an expiration of Quarterly Option Series on the same class. In other words, the total number of consecutive expirations will be five, including any existing monthly or quarterly expirations.⁵

The Exchange notes that the STOS Program has been well-received by market participants, in particular by retail investors.⁶ The Exchange believes that the current proposed revision to the STOS Program will permit the Exchange to meet increased customer demand and provide market participants with the ability to hedge in a greater number of option classes and series.

With regard to the impact of this proposal on system capacity, the Exchange has analyzed its capacity and represents that it and the Options Price Reporting Authority have the necessary systems capacity to handle the potential additional traffic associated with trading of an expanded number of expirations that participate in the STOS Program.

In addition, to provide for circumstances where the underlying security has moved such that there are no series that are at least 10% above or below the current price of the underlying security, the Exchange is proposing to add new language to Interpretations and Policies .02 to

⁴ See Exchange Rule 404, Interpretations and Policies .03.

⁵ For example, if Quarterly Options expire week 1 and monthly options expire week 3 from now, the proposal would allow the following expirations: week 1 Quarterly, week 2 STOS, week 3 monthly, week 4 STOS, and week 5 STOS.

⁶ Since the STOS Program has been adopted, it has seen rapid acceptance among industry participants as evidenced by the expansion of the number of classes eligible for the STOS Program by various Exchanges. See Securities Exchange Act Release Nos. 65775 (November 17, 2011), 76 FR 72473 (November 23, 2011) (SR-NASDAQ-2011-138); 65776 (November 17, 2011), 76 FR 72482 (November 23, 2011) (SR-PHLX-2011-131); 66563 (March 9, 2012), 77 FR 15426 (March 15, 2012); 67194 (June 13, 2012), 77 FR 36597 (June 19, 2012) (SR-NYSEMKT-2012-08); and 67178 (June 11, 2012), 77 FR 36305 (June 18, 2012) (SR-NYSEArca-2012-60).

provide that the Exchange would delist series with no open interest in both the call and the put series having: (i) a strike higher than the highest price with open interest in the put and/or call series for a given expiration month; and (ii) a strike lower than the lowest strike price with open interest in the put and/or the call series for a given expiration month, so as to list series that are at least 10% but not more than 30% above or below the current price of the underlying security. Further, in the event that all existing series have open interest and there are no series at least 10% above or below the current price of the underlying security, the Exchange may list additional series, in excess of the 30 allowed currently under Interpretations and Policies .02, that are at least 10% and not more than 30% above or below the current price of the underlying security.

The Exchange believes that it is important to allow investors to roll existing option positions, and ensuring that there are always series at least 10% but not more than 30% above or below the current price of the underlying security will allow investors the flexibility they need to roll existing positions. This change is being proposed notwithstanding the current cap of 30 series per class under the STOS Program.

2. Statutory Basis

The Exchange believes that its proposed rule change is consistent with Section 6(b)⁷ of the Act in general, and furthers the objectives of Section 6(b)(5)⁸ of the Act in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to and perfect the mechanisms of a free and open market and a national market system and, in general, to protect investors and the public interest.

⁷ 15 U.S.C. 78f(b).

⁸ 15 U.S.C. 78f(b)(5).

The Exchange believes that expanding the STOS Program will result in a continuing benefit to investors by giving them more flexibility to closely tailor their investment decisions and hedging decisions in a greater number of securities. The Exchange also believes that expanding the STOS Program will provide the investing public and other market participants with additional opportunities to hedge their investment, thus allowing these investors to better manage their risk exposure. While the expansion of the STOS Program will generate additional quote traffic, the Exchange does not believe that this increased traffic will become unmanageable since the proposal remains limited to a fixed number of expirations.

The Exchange believes that the ability to delist series with no open interest in both the call and the put series will benefit investors by devoting the current cap in the number of series to those series that are more closely tailored to the investment decisions and hedging decisions of investors.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

The Exchange believes that the proposal enhances competition among exchanges by enabling market participants to use STOS in a greater number of series in making investment decisions. MIAX will have more series through which investors will be able to tailor their investment and hedge positions, therefore enabling MIAX to compete with other exchanges that have similar rules in place, as cited below.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days after the date of the filing, or such shorter time as the Commission may designate, it has become effective pursuant to 19(b)(3)(A) of the Act⁹ and Rule 19b-4(f)(6)¹⁰ thereunder.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act.

Comments may be submitted by any of the following methods:

Electronic comments:

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>);

or

⁹ 15 U.S.C. 78s(b)(3)(A).

¹⁰ 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6) requires a self-regulatory organization to give the Commission written notice of its intent to file the proposed rule change at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.

- Send an e-mail [to rule-comments@sec.gov](mailto:rule-comments@sec.gov). Please include File Number SR-MIAX-2013-23 on the subject line.

Paper comments:

- Send paper comments in triplicate to Elizabeth M. Murphy, Secretary, Securities and Exchange Commission, 100 F Street, NE, Washington, DC 20549-1090.

All submissions should refer to File Number SR-MIAX-2013-23. This file number should be included on the subject line if e-mail is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>).

Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street, NE, Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly.

All submissions should refer to File Number SR-MIAX-2013-23 and should be submitted on or before [insert date 21 days from publication in the Federal Register]. For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹¹

Kevin M. O'Neill
Deputy Secretary

MIAMI INTERNATIONAL SECURITIES EXCHANGE, LLC Rules

Rule 404. Series of Option Contracts Open for Trading

(a) – (g) No change.

Interpretations and Policies:

.01 No change.

.02 Short Term Option Series Program. After an option class has been approved for listing and trading on the Exchange, the Exchange may open for trading on any Thursday or Friday that is a business day (“Short Term Option Opening Date”) series of options on that class that expire at the close of business on each of the next five consecutive [on the] Fridays [of the following week] that [is a] are business days (“Short Term Option Expiration Dates”). If the Exchange is not open for business on the respective Thursday or Friday, the Short Term Option Opening Date will be the first business day immediately prior to that respective Thursday or Friday. Similarly, if the Exchange is not open for business on the Friday of the following business week, the Short Term Option Expiration Date will be the first business day immediately prior to that Friday. Regarding Short Term Option Series:

(a) – (c) No change.

(d) **Additional Series.** The Exchange may open up to 10 additional series for each option class that participates in the Short Term Option Series Program when the Exchange deems it necessary to maintain an orderly market, to meet customer demand or when the market price of the underlying security moves substantially from the exercise price or prices of the series already opened. Any additional strike prices listed by the Exchange shall be within thirty percent (30%) above or below the current price of the underlying security. The Exchange may also open additional strike prices on Short Term Option Series that are more than 30% above or below the current price of the underlying security provided that demonstrated customer interest exists for such series, as expressed by institutional, corporate or individual customers or their brokers. Market makers trading for their own account shall not be considered when determining customer interest under

this provision. In the event that the underlying security has moved such that there are no series that are at least 10% above or below the current price of the underlying security, the Exchange will delist any series with no open interest in both the call and the put series having a: (i) strike higher than the highest strike price with open interest in the put and/or call series for a given expiration month; and (ii) strike lower than the lowest strike price with open interest in the put and/or the call series for a given expiration month, so as to list series that are at least 10% but not more than 30% above or below the current price of the underlying security. In the event that the underlying security has moved such that there are no series that are at least 10% above or below the current price of the underlying security and all existing series have open interest, the Exchange may list additional series, in excess of the 30 allowed under Interpretations and Policies .02(a), that are between 10% and 30% above or below the price of the underlying security. The opening of new Short Term Option Series shall not affect the series of options of the same class previously opened.
